Mississippi Stud

is a five-card poker game. In Mississippi Stud, you win if your hand is a pair of jacks or better (pairs of 6's–10's push). The top payout is 500 to 1 for a royal flush—and it pays on all bets!

GETTING STARTED

Make an ante bet to receive your first two cards. The dealer will place three community cards face down in the middle of the layout.

PLAY OR FOLD?

At this point, you may either fold or make the 3rd Street bet of 1x to 3x your ante. The dealer then reveals the first community card. Once you see the first community card, you have a choice: fold or make the 4th Street bet of 1x to 3x your ante. The dealer then reveals the second community card. Once again, you can fold or stay in the game by making the 5th Street bet from 1x to 3x your ante.

Note: When you fold, you forfeit all bets left in action.

Winning and Losing

After turning over the final community card, the dealer resolves all wagers left in action. You win if your five-card hand is a pair of jacks or better (pairs of 6's–10's push). See payable for odds. \$50,000 maximum payout per player per round does not apply to progressive wagers.

PROGRESSIVE RULES OF PLAY

- Mississippi Stud offers an optional progressive bonus wager.
- The bet considers the best hand possible among all the player's cards.
- The pay table shown has been designed to work on a link together with the games Four Card Poker, Let It Ride, and Ultimate Texas Hold'Em.

HAND	PAYS	ENVY
Royal Flush	100%	\$5000
Straight Flush	10%	\$1500
Four of a Kind	\$1500	
Full House	\$250	
Flush	\$200	
Straight	\$150	
Three of a Kind	\$45	
Original Wager is NOT Returned. Reflects a \$5 wager.		

- Envy Bonus:
- A player making the progressive bonus wager also qualifies to win an envy payout. If another player at the table hits a hand associated with an envy pay, all other players who made the progressive bonus wager win the envy pay. The player hitting the hand receives the normal prize pay only, but does NOT receive the envy pay. Rule of thumb: You can't win an envy bonus pay from yourself, or the dealer. Folded hands do not qualify for progressive payouts but do qualify for envy bonus payouts.
 - If a player's hand triggers an envy payout, the dealer will leave the hand face-up on the layout; otherwise, the dealer will lock up the cards. The dealer will then move on to the next player.
 - The dealer pays any Envy Bonuses at the end of the round. In the event that more than one player is involved in a qualifying envy pay, then all players win multiple envy payouts.
